SUBJECT INDEX

* refers to Memoir 3 of The Paleontological Society

Aatocrininae: new subfamily, crinoid (76)
Acleistorhinidae: new family, reptiles (36)
Acleistorhinus pteroticus: new genus, new species, reptile (36)
Acodus combsi: new species, conodont (19)
Acodus housensis: new species, conodont (91)
Acodus sevierensis: new species, conodont (91)
Acontiodus lavadamensis: new species, conodont (91)
Acontiodus nevadensis: new species, conodont (41)
Acontiodus (Semiacontiodus) bicostatus: new species, conodont (91)
Acontiodus (Semiacontiodus) nogamii: new species, conodont (91)
Acontiodus (Semiacontiodus) unicostatus: new species, conodont (91)
Acritarchs: Silurian, Pennsylvania (35)
Affinocrininae: new subfamily, crinoid (76)
Affinocrinus abathus: new genus, new species, crinoid (76)
Affinocrinus concavus: new species, crinoid (76)
Alaska: Devonian trilobite (94); Miocene-Pliocene bivalve (71)
Algae: distribution in Leavenworth Limestone, Midcontinent (141); Precambrian, Australian (122)
Amino acids: rock samples and plant fossils, Paleozoic (134)
Ammonites: Mesozoic, recent literature (51)
Ammonoids: Triassic, southeast Queensland (115)
Amphientomum elongatum: new species, insect (92)
Anaflemingites armstrongi: new species, ammonite (115)
Annelids: Cambrian, Utah (106)
Anthracotarbidae: new family, arachnids (73)
Anthracotarbus hintoni: new genus, new species, arachnid (73)
Aparchites whiteavesi: problems of relationships, ostracode (135)
Aparchitidae: status of the family, Ordovician ostracode (135)
Aparnocondylus: a reappraisal, decapod (79)
Arachnids: Pennsylvanian, Oklahoma (73)
Archaeocyathids: Cambrian, California and Nevada (87)

Archaeophiomusium bispinosum: new species, ophiuroid (90)
Archipsocus (Archipsocopsis) antiguus: new species, insect (92)
Arenoparrella malaysiana: new species, foraminifer (38)
Argopecten gibbus stock: evolution (144)
Arizona: fusulinids, Pennsylvania (111)
Arkacrininae: new subfamily, crinoid (76)
Arkacrinus: new genus, crinoid (76)
Arrectocrininae: new subfamily, crinoid (76)
Arrectocrinus: new genus, crinoid (76)
Atmospheric evolution: Precambrian evidence (122)
Atokacrininae: new subfamily, crinoid (76)
Atokacrinus obscurus: new genus, new species, crinoid (76)
Atrypa reticularis: rib branching patterns, Silurian, Gotland (54)
Australia: conularid, Permian (138); new family Paleozoic brachiopods (45); Precambrian microorganisms (122)
Aviculopecten: growth lamellae on type species (149)
Azolla: Eocene, reappraisal of megaspores (53)
Baltisphaeridium maravillosum: new species, phytoplankton (35)
Baltisphaeridium monterrosae: new species, phytoplankton (35)
Beaver: Pliestocene, Florida (89)
Belaphotroctes similis: new species, insect (92)
Belgium: biostratigraphic chart, Devonian (18)
Belodina monitorensis: new species, conodont (41)
Belodina monitorensis marginata: new subspecies, conodont (41)
Belodina monitorensis monitorensis: new subspecies, conodont (41)
Bivalves: see pelecypods
Borings: Devonian brachiopods (22)
Boucotia australis: new genus, new species, brachiopod (45)
Brachiopods: annelid borings, Ordovician (104); borings in shells, Devonian (22); Carboniferous rhynchonellid, England—growth, variation, evolutionary trends (98); Devonian, Nevada (69); ecology, Ordovician of eastern Pennsylvania (20); food of living articulate forms (86); Gotland, *Atrypa reticularis* (54); Kinderhookian, Montana (108); Lower Devonian, Canada (74); Notanopliidae, new family, Paleozoic, Australia (45); Ordovician, Tennessee (62); origin of *Gruenewaldtia*, Devonian (67); Pennsylvania, Nevada (13); pentamerid in Silurian, Oklahoma, Texas (4); Permian, Canadian Arctic (148); rensselandiid, North America (66); rhipidomellid subfamilies (55); Silurian, Missouri and Illinois (121); stegidial structures in Spiriferidina (34)
Bryozoans: carbonate mineralogy, Holocene (113); cheilostome, wall structure and mineralogy (29); Late Mississippian (88); Ordovician Ectoprocta (112); paleoecology of ectoprocts (123); skeletal growth, intercolony variation, and evolution (16); "uncalcified" zoaria of lunulitiform Bryozoa (49)
Buxtonia websteri: new species, brachiopod (13)
California: archaeocyathids, Cambrian (87)
Calliprotonia spinula: new species, brachiopod (13)
Cambrian: annelids, Utah (106); archaeocyathids, California and Nevada (87); coelenterates (?), Nevada (93); hexactinellid, Utah (105); hyolithoid (159)
Cambrian, Middle: conodonts, Nevada (30)
Cambro-Ordovician: conodonts, Utah (91)
Camels: deciduous premolars, North American Tertiary (85)
Canada: Silurian graptolites, (64); Lower Devonian brachiopods (74); Lower Devonian conodonts (74); Middle Pennsylvanian reptile (25); Permian brachiopods (148)
Carboniferous: rhynchonellids, England (98); trilobites, Utah (26)
Carboniferous, Upper: carbohydrate components of plant fossils, England (133)
Caribbean Basin: radiolaria, classification and phylogeny (46)
Cariodens: new name for *Compressidens*, mosasaur (139)
Castoroides ohioensis dilophidus: new subspecies, beaver (89)
Catacrininae: new subfamily, crinoid (76)
Catacrinus: new genus, crinoid (76)
Cathetocrinus: new genus, crinoid (76)
Cavellina: validity of name, ostracod (129)
Cenozoic: radiolaria, classification and phylogeny (46)
Ceramopora: generic revision, bryozoan (142)
Chelidae: Tertiary, Tasmania (147)
Chitinozoans: Devonian, Ohio (17); Silurian, Pennsylvania (35)
Choristites orbitus: new species, brachiopod (13)
Clavohamulus elongatus: new species, conodont (91)
Clavohamulus hintzei: new species, conodont (91)
Clavohamulus primitus: new species, conodont (91)
Coccoliths: see Nannoplankton
Coelenterate(?): Cambrian, Nevada (7)
Colorado: Late Devonian fish (96)
Conochitina? monterrosae: new species, chitozona (35)
Conodonts: Cambro-Ordovician, Utah (91); Devonian platform type illustrating species concept (126); fused clusters, Silurian, Indiana (103); improved technique for heavy liquid separation (27); Lower Devonian, Canada (74); Lower Mississippian, Iowa (5); Middle Ordovician, Nevada (41); Middle Ordovician, Texas

(19); new and suppressed names (93); oldest in North America, Middle Cambrian (30); Ordovician, Cincinnati region (77)
Contocrinus: new genus, crinoid (76)
Conularid: Permian, Australia (138)
Corals: Queensland, Devonian (65); Pennsylvanian, Iowa (32); tetracoral morphology (155)
Cretaceous: planktonic foraminifers, North Dakota (43); trace fossil, Kansas, Iowa, Oklahoma (56)
Cricetinae, incertae sedis: Miocene, Nebraska (2)
Crinoids: Devonian, Nevada (68); new order of Late Paleozoic Inadunata (76)
Crossopodia: trace fossil, Cretaceous, Kansas, Iowa, Oklahoma (56)
Crurithyris fissa: new species, brachiopod (69)
Cuba: Neocomian rhyncholites (59)
Cyrtograptus canadensis: new species, graptolite (64)
Cyrtograptus laqueus: new species, graptolite (64)
Cyrtonella mitella (Hall): taxonomic position (109)
Cyrherura? mainensis: new species, ostracod (57)
Czechoslovakia: new genus, foraminifer, Triassic (117)
Daktylethra punctulata: new genus, new species, holococcolith (44)
Decapods: Eocene, Florida (79)
Declinida: new order, inadunate crinoids (76)
Dekayia sugarensis: new species, bryozoan (112)
Devonian: biostratigraphic chart, Famennian Stage, Belgium (18); borings in brachiopod shells (22); brachiopods, Nevada (69); chitinozoans, Ohio (17); conodonts, brachiopods (74); corals, Queensland (65); crinoids (68); dendroid graptolites, central United States (12); dinichthyid, Iowa (132); fish, Colorado (96); origin of *Gruenewaldtia*, brachiopod (67); trilobite, Alaska (94); trilobites, Nevada, Mexico (52); worm-boring (23)
Devonian, Lower: salopinid brachiopods (145)
Diademodon: tooth succession, therapsid (160)
Dichodella: suppressed generic name, conodont (93)
Dictyonema gorbutensis: new species, dendroid graptolite (12)
Didymodella: new generic name, conodont (93)
Dieneroceras woondumense: new species, ammonite (115)
Dinoflagellates: index, Pyrrhophyta (83)
Dinohyus: Miocene, South Dakota (99)
Dorcadospyris costalescens: new species, radiolarian (46)
Ecology and Paleoecology: algae in Pennsylvanian, Midcontinent (141); *Argopecten gibbus* stock (144); bryozoans, ectoprocts (123); diversity and size patterns in marine fossils (143); feeding and burrowing, *Mellita quinquiesperforata*, (sand dollar) (10); foraminifers, Eocene, India (14); foraminifers, multivariate techniques (60); Ordovician brachiopods (20); planktonic foraminifers (11); Thyasiridae (bivalves) (71); *Triticites* and *Dunbarinella*, fusulinids (110)
Emydura (Chelidae): Tertiary, Tasmania (147)
England: carbohydrate components of Carboniferous plant fossils (133); Carboniferous rhynchonellids (98); foraminifers, multivariate techniques (60); new Silurian conodont species (124)
Eobelodina occidentalis: new species, conodont (41)
Eocene: decapods, Florida (79); foraminifers, India (14); reappraisal of two species of *Azolla* (53); rodent, Wyoming (151)
Epiposocus clarus: new species, insect (92)
Evolution: *Aragpecten gibbus* stock, Tertiary and Quaternary (144); Bryzoa (16); Carboniferous trilobites (26)
Exterocrininae: new subfamily, crinoid (76)
Exterocrinus: new genus, crinoid (76)
Favositella: generic revision, bryozoan (142)
Fish: Devonian, Colorado (96); dinichthyid, Devonian, Iowa (132)
Florida: beaver, Pleistocene (89); decapods, Eocene (79); land vertebrate fauna, Oligocene (100)
Foraminifers (exclusive of fusulinids): Eocene, India (14); multivariate techniques, living species, England (60); new genus, Triassic, Czechoslovakia (117); new and suppressed name (72); new technique for serial sectioning (1); planktonic, Cretaceous, North Dakota (43); planktonic, basic morphology and ecologic implications (11); Recent, Malaysia (38); x-ray microscopy, internal morphology, planktonic (8)
Fryxellodontus inornatus: new genus, new species, conodont (91)
Fryxellodontus lineatus: new species, conodont (91)
Fusulinacea: population dynamics of *Triticites ventricosus* (70)
Fusulinidae: bibliography of family (120); Pennsylvanian, Texas (15)
Fusulinids: new and suppressed name (128); Pennsylvanian, Arizona (111)
Gasterocoma? bicaula: new species, crinoid (68)
Gastropods: Pennsylvanian, Nevada (13); replacement name for *Vitrinella tenuisculpta* (33); *Turritella rina* group and relationship to *Torcula* (3)
Gennaeocrinus maxwelli: new species, crinoid (68)
Giraffospyris annulispina: new species, radiolarian (46)
Giraffospyris circumflexa: new species, radiolarian (46)
Giraffospyris lata: new species, radiolarian (46)
Giraffospyris laterispina: new species, radiolarian (46)
Globigerina nepenthes: range in South Pacific (97)
Glossograptus: development, graptolite (153)
Gotland, Sweden: brachiopods, Silurian *Atrypa reticularis* (54)
Graffhamicrininae: new subfamily, crinoid (76)

Graffhamicrinus: new genus, crinoid (76)
Graptolites: Devonian dendroid, central United States (12); Ordovician, Nebraska (24); Ordovician, Newfoundland (153); Silurian, Canada and Greenland (64)
Greenland: graptolites, Silurian (64)
Growth: bryozoans, ectoproct growth forms (123); method of, bryozoans (16)
Gruenewaldtia: origin, brachiopod (67)
Haplophragmoides labukensis: new species, foraminifer (38)
Haplophragmoides sabahensis: new species, foraminifer (38)
Haplotrypa: generic revision, bryozoan (142)
Hemidiscellidae: new family, sponge (75)
Heterorthella maehli: new genus, new species, brachiopod (55)
Heterorthinae Schuchert and Cooper: emended, brachiopod (55)
Hirsutodontus hirsutus: new genus, new species, conodont (91)
Hirsutodontus rarus: new species, conodont (91)
Holocene: bryozoa, carbonate mineralogy (113)
Holococcoliths: Tertiary species determined by electron micrographs (44)
Hyolithoid: *Kygmaeoceras* redescribed (159)
Illinois: brachiopods, Silurian (121)
India: foraminifers, Eocene (14)
Indiana: fused conodont clusters, Silurian (103)
Insects: amber of Chiapas, Mexico, Tertiary (92)
International Commission on Zoological Nomenclature: notices (156, 157, 158)
Iowa: conodonts, Lower Mississippian (5); corals, Pennsylvanian (32); dinichthyid, Devonian (132); trace fossil, Cretaceous (56)
Itararella gracilis: new genus, new species, sponge (75)
Kansas: population dynamics of *Triticites ventricosus* (70); trace fossil, Cretaceous (56)
Kinderhookian: brachiopods, Montana (108)
Kirkidium pingue latum: new subspecies, brachiopod (4)
Koneprusia: Lower Devonian of Alaska, trilobite (94)
Kygmaeoceras: redescription, hyolithoid (159)
Lake Agassiz: fossil mollusks (161)
Lasanocrininae: new subfamily, crinoid (76)
Latisageceras woondumense: new species, ammonite (115)
Leavenworth Limestone: stratigraphy, paleogeography and sediment facies relationships, Pennsylvanian, Midcontinent (140)
Leonaspis tuberculata favonia: new subspecies, trilobite (52)
Libratocrinus: new genus, crinoid (76)
Lobalocrinus: new genus, crinoid (76)
Malaysia: Recent foraminifers (38)
Mammals: Miocene, South Dakota (99)
Marine fossils: niche diversity and size pattern (143)
Marklandella giraldi: new genus, new species, brachiopod (55)
Marklandella macadamica: new species, brachiopod (55)
Martinophyllum ornatum: new genus, new species, rugose coral (65)
Meandrospiranella: new genus, foraminifer (117)
Mesocheilus? pinarensis: new species, rhyncholite (59)
Mesozoic: ammonites, recent literature (51)
Metacromyocrinus decoratus: new species, crinoid (76)
Metarrectocrinus: new genus, crinoid (76)
Mexico: Tertiary insects from amber (92); trilobites, Devonian (52)
Microhemidiscia ortamanni: new genus, new species, sponge (75)
Miocene: bivalve, Alaska (71); calcareous nannoplankton (81); mammals, South Dakota (99); *Paciculus* teeth, Nebraska (2)
Mississippian: conodonts, Iowa (5); trepostomatous bryozoan (88)
Missouri: brachiopods, Silurian (121)
Mollusca: taxonomic position *Cyrtonella mitella* (Hall) (109)
Mollusks: from Lake Agassiz (161); post-mortem transportation in coastal lagoon (146)
Montana: brachiopods, Kinderhookian (108); new species coral, Pennsylvanian (39)
Mosasaur: new name for *Compressidens* (139)
Munseyella atlantica: new species, ostracod (57)
Munseyella mananensis: new species, ostracod (57)
Myxococcoides muricata: new species, alga (122)
Nannoplankton: holococcoliths from Tertiary (44); Miocene (81)
Nannoplankton, calcareous: index and bibliography (84)
Nebraska: graptolites, Ordovician (24)
Neocatacrinus: new genus, crinoid (76)
Neocomian: rhyncholites, Cuba (25)
Neoprotencrinus: new genus, crinoid (76)
Neospathodus lanceolatus: suppressed name, conodont (93)
Nevada: archaeocyathids, Cambrian (87); brachiopods, Devonian (69); brachiopods and gastropod, Pennsylvanian (13); Cambrian coelenterate(?) (7); conodonts, Middle Cambrian (30); condonts, Ordovician (41); crinoids, Devonian (68); ophiuroid, Permian (90); trilobites, Devonian (52)
Newfoundland: graptolites, Ordovician (153)

New Mexico: *Ungdarella americana*, junior synonym of *Komia eganensis*, stromatoporoid (154)
New York: Bryozoa, Ordovician (112)
North Dakota: planktonic foraminifers, Cretaceous (43)
Notanoplia pherista: new genus, new species, brachiopod (45)
Notanopliidae: new family, brachiopods (45)
Notoconularia: new genus, conularid (138)
Oepikodus copenhagenensis: new species, conodont (41)
Ohio: chitinozoans, Devonian (17)
Oistodella pulchra: new genus, new species, conodont (19)
Oistodus angulatus: new species, conodont (19)
Oistodus cambricus: new species, conodont (91)
Oistodus minutus: new species, conodont (91)
Oistodus nevadensis: new species, conodont (41)
Oklahoma: arachnid, Pennsylvanian (73); pentamerid brachiopods, Silurian (4); reptiles, Permian (36); trace fossil, Cretaceous (56)
Oligocene: land vertebrate fauna, Florida (100)
Oncodella idiodentica: suppressed name, conodont (93)
Oneotodus bulbousus: new species, conodont (91)
Ophiuroid: Permian, Nevada (90)
Ordovician: annelid borings in brachiopods (104); *Aparchites whiteavesi*, ostracod (135); brachiopod ecology (20); brachiopods, Tennessee (62); bryozoans, redescription of cotypes of *Peronopora vera* (6); conodonts, Cincinnati region (77); conondonts, Nevada (41); conodonts, Texas (19); ectoproct Bryozoa (112); graptolites, Nebraska (24); graptolites, Newfoundland (153)
Ostracoda: structure and polymorphism of normal pores in cytheracean ostracodes (119)
Ostracods: *Aparchites whiteavesi*, problems of relationships (135); appendages and family placement of *Pellucistoma* (118); Holocene and Pleistocene, NE North America (57)
Otarion (*Otarion*) *periergum:* new species, trilobite (52)
Paciculus: teeth, Miocene, Nebraska (2)
Paciculus nebraskensis: new species, rodent (2)
Pacific Basin: radiolaria, classification and phylogeny (46)
Paladin pyriformus: new species, trilobite (26)
Paladin retrolatus: new species, trilobite (26)
Palaeosabella prisca (McCoy): new name for worm-boring (23)
Palaeoscolex ratcliffei: new species, annelid (106)
Paleoecology: information theory measures of diversity as a tool (9)
Paleoenvironmental analyses: use of clionid sponges (78)
Paleogeography: Leavenworth Limestone, Pennsylvanian, Midcontinent (40)
Paleothyris acadiana: new genus, new species, reptile (25)
Paleozoic: amino acid components in plant fossils and rock samples (134)
Palmatocrinus: new genus, crinoid (76)
Palmerocrininae: new subfamily, crinoid (76)
Palmerocrinus comptus: new genus, new species, crinoid (76)
Paltodus utahensis: new species, conodont (91)
Panderodus denticulatus: new species, conodont (124)
Papillalunaria: new genus, bryozoan (142)
Paradelocrinidae: new family, crinoids (76)
Parallelocrinus: new genus, crinoid (76)
Paramys wyomingensis (Wood): new combination, rodent, Eocene, Wyoming (151)
Paranorites hillae: new species, ammonite (115)
Paranorites queenslandicus: new species, ammonite (115)
Parapugnax bacterianense: new species, brachiopod (69)
Parerisocrinus: new genus, crinoid (76)
Pelecypods: byssus of trigonian clams (48); evolution of *Argopecten gibbus* stock (144); Miocene-Pliocene, Alaska (71)
Pelekysgnathus furnishi: new species, conodont (74)
Pelekysgnathus glenisteri: new species, conodont (74)
Pellucistoma: appendages and family placement, ostracod (118)
Pennsylvania: Ordovician brachiopod ecology (20); phytoplankton assemblages, Silurian (35)
Pennsylvanian: arachnid, Oklahoma (73); biota of Leavenworth Limestone, Midcontinent (140); brachiopods and gastropod, Nevada (13); corals, Iowa (32); distribution of algae, Midcontinent (141); fusulinids, Texas (15); fusulinids, Arizona (111); new species of coral, Montana (39); paleoecology, fusulinids (110); interrelationships of primitive reptiles (25); *Ungdarella americana*, junior synonym for *Komia eganensis*, stromatoporid (154)
Permian: brachiopods, Canada (148); conularid, Australia (138); ophiuroid, Nevada (90); reptiles, Oklahoma (36)
Peronopora vera Ulrich: rediscription of cotypes, bryozoan (6)
Peruvispiria borealа: new species, gastropod (13)
Phacops (*Phacops*) *claviger:* new species, trilobite (52)
Phanocrinidae: new family, crinoids (76)
Photomacrography: lighting techniques (61)
Phytoplankton assemblages: Silurian, Pennsylvanian (35)
Phytosaurs: Triassic, Europe (50)
Planecapula albeari: new species, rhyncholite (59)

Platyfundocrinus typus: new genus, new species, crinoid (76)
Platyorthinae: new subfamily, brachiopod (55)
Pleistocene: beaver, Florida (89)
Plexodictyon petchorense: new name, stromatoporoid (131)
Plexodictyon waparski: new species, stromatoporoid (131)
Pliocene: bivalve, Alaska (71)
Polygnathus lenzi: new species, conodont (74)
Pontotocrinus: new genus, crinoids (76)
Praebulimina prolixa elongata: new name, foraminifer (72)
Praebulimina prolixa longa: suppressed name, foraminifer (72)
Precambrian: microorganisms, Australia (122)
Proconodontus carinatus: new genus, new species, conodont (91)
Proconodontus mülleri mülleri: new species, new subspecies, conodont (91)
Proconodontus mülleri serratus: new subspecies, conodont (91)
Proconodontus notchpeakensis: new species, conodont (91)
Protencrinidae: new family, crinoid (76)
Protencrinus mutabilis: new species, crinoid (76)
Pseudofusulina californica: new name, fusulinid (128)
Pseudofusulina tenuis: suppressed name, fusulinid (128)
Psilocrininae: new subfamily, crinoid (76)
Psilocrinus: new genus, crinoid (76)
Punctospirifer gnomus: new species, brachiopod (13)
Pyndaxocrinus: new genus, crinoid (76)
Pyrrhophyta: index, dinoflagellates (83)
Quaternary: *Argopecten gibbus* stock, evolution (144)
Queensland: ammonites, Triassic (115); corals, Devonian (65)
Radiolaria: Cenozoic, classification and phylogeny (46)
Ratcliffespongia perforata: new species, sponge (105)
Reptiles: interrelationships of primitive forms (25); Middle Pennsylvanian, Canada (25); Permian, Oklahoma (36)
Retaria pseudantiquatonia: new species, brachiopod (13)
Retusocrinus: new genus, crinoid (76)
Reviews: (31, 37, 40, 42, 47, 58, 63, 80, 82, 95, 101, 102, 107, 114, 116, 125, 127, 130, 137, 150, 152)
Rhyncholites: Neocomian, Cuba (59)
Rib branching patterns: *Atrypa reticularis*, Gotland (54)
Rodent: Eocene, Wyoming (151)
Salopina hazardensis: new species, brachiopod (145)
Salopina hitchcocki: new species, brachiopod (145)
Salopina robitaillensis: new species, brachiopod (145)
Salopina shelvensis: new species, brachiopod (145)
Scandodus biconvexus: new species, conodont (19)
Scandodus dubius: new species, conodont (19)
Scandodus nevadensis: new species, conodont (41)
Sciadiocrininae: new subfamily, crinoid (76)
Scolopodus alatus: new species, conodont (19)
Semiacontiodus: new subgenus, conodont (91)
Sevillia nucleata: new species, trilobite (26)
Silurian: brachiopods, Missouri and Illinois (121); new conodont species England, (124); fused conodont clusters, Indiana (103); graptolites, Canada and Greenland (64); paleogeography from phytoplankton assemblages, Pennsylvania (35); pentamerid brachiopods, Oklahoma, Texas (4); salopinid brachiopods (145)
Simocrinus: new genus, crinoid (76)
Skiagraptus: development, graptolite (153)
Solariorbis aguayoi: replacement name for *Vitrinella tenuisculpta*, gastropod (33)
South Dakota: mammals, Miocene (99)
South Pacific: range of *Globigerina nepenthes* (97)
Spathognathodus boucoti: new species, conodont (74)
Spathognathodus exiguus philipi: new subspecies, conodont (74)
Spathognathodus johnsoni: new species, conodont (74)
Species concept: (126)
Spheroidal unicells: Precambrian, Australia (122)
Sponges: Clionid sponges in paleoenvironmental analyses (78); hexactinellid, Cambrian, Utah (105); Paleozoic, Uruguay (75)
Statistical procedures: application of information theory to paleontologic problems (9); binary similarity coefficients (28); multivariate techniques, foraminifers (60)
Stromatoporoids: review of genera (131); *Ungdarella americana*, junior synonym of *Komia eganensis*, Pennsylvanian (154)
Subarrectocrinus: new genus, crinoid (76)
Sublobalocrinus: new genus, crinoid (76)
Subrensselandia nolani: new species, brachiopod (66)
Syringopora centrocylindrica: new species, coral (39)
Tasmania: turtles, Tertiary (147)
Teeth: rodent, Miocene, Nebraska (2)
Tennessee: brachiopods, Ordovician (62)

Tertiary: *Argopecten gibbus* stock, evolution (144); camels, North America (85); insects from amber at Chiapas, Mexico (92); turtles, Tasmania (147)
Texas: Fusulinidae, Pennsylvanian (15); Middle Ordovician conodonts (19); paleoecology, fusulinids (110); pentamerid brachiopods, Silurian (4)
Therapsid: tooth succession (160)
Tholospyris devexa: new species, radiolarian (46)
Tholospyris infericosta: new species, radiolarian (46)
Tholospyris procera: new species, radiolarian (46)
Thyasira alaskana: new species, bivalve (71)
Torcula martinensis henkeri: new subspecies, gastropod (3)
Trace fossils: Cretaceous, Kansas, Iowa, Oklahoma (56)
Triassic: ammonoids, southeast Queensland (115); new genus, foraminifer, Czechoslovakia (117); phytosaurs, Europe (50)
Triceracrininae: new subfamily, crinoid (76)
Trichopsocus maculosus: new species, insect (92)
Trilobites: Carboniferous, Utah (26); Devonian, Nevada, Mexico (52)
Tripodus laevis: new genus, new species, conodont (19)
Triquetrorhabdulus: discussion, calcareous nannoplankton, Miocene (81)
Triticites arcuosoides: new species, fusulinid (111)
Triticites ferayi: new species, fusulinid (15)
Triticites gilaensis: new species, fusulinid (111)
Triticites heroyi: new species, fusulinid (15)
Triticites ventricosus: population dynamics (70)
Triticites winchellensis: new species, fusulinid (15)
Turritella rivurbana chiapasensis: new subspecies, gastropod (3)
Turritella rivurbana mexicana: new subspecies, gastropod (3)
Turtles: Tertiary, Tasmania (147)
Ulocrinus percultus: new species, crinoid (76)
Uruguay: sponges, Paleozoic (75)
Utah: annelids, Cambrian (106); Carboniferous trilobites (26); conodonts, Cambro-Ordovician (91); hexactinellid sponges (105)
Vermiforafacta rollinsi Cameron: new genus, new species, worm-boring (23)
Vermiforichnus clarkei Cameron: new name for *Palaeosabella prisca* (23)
Vertigocrinus: new genus, crinoid (76)
Wewokacrinus: new genus, crinoid (76)
Worm-boring: new name, Devonian (23)
Wyndhamia sphenarctica: new species, brachiopod (148)
Wyndhamia unispinosa: new species, brachiopod (148)
